

## DAILY DOSE

**CURRENT AFFAIRS – 21-02-2026**

### **Vibrant Villages Programme-II (Assam)**

The Centre launched Phase-II of the Vibrant Villages Programme in Assam to strengthen development in border villages.

It focuses on infrastructure, road connectivity, telecom, power supply, and livelihood opportunities. The aim is to curb migration and enhance security in strategic frontier regions.

### **China expanding nuclear infrastructure in Sichuan**

China is reportedly expanding nuclear-related infrastructure in Sichuan province.

The development may relate to nuclear research, energy, or strategic military capabilities. It has implications for regional security and global nuclear modernization trends.

### **Vikram LLMs by Sarvam AI**

Sarvam AI launched Vikram 30B and 105B parameter large language models. These models aim to strengthen India's sovereign AI ecosystem and multilingual capabilities.

The initiative supports India's push toward self-reliance in advanced AI technologies.

### **Mission Drishti – Powered by Nvidia Jetson Orin**

Mission Drishti uses Nvidia's Jetson Orin edge AI platform for real-time image and video processing.

It is likely designed for surveillance, drone operations, or defense-related applications. The project reflects growing integration of AI in tactical and security systems.

### **PM-SETU Skill Scheme (₹60,000 crore)**

PM-SETU is a large-scale skill development initiative with an outlay of ₹60,000 crore. It aims to enhance youth employability through industry-aligned training and modern skill programs. The scheme focuses on bridging the gap between education and workforce demands.

### **Jain Chadar Mahotsav – Jaisalmer (6–8 March 2026)**

Jain Chadar Mahotsav is a religious and cultural festival celebrated in Jaisalmer, Rajasthan. The event promotes Jain spiritual traditions and community participation. It also contributes to heritage tourism and cultural preservation.

### **Gaganyaan Parachute Test**

The parachute system for ISRO's human spaceflight mission was tested at DRDO's RTRS facility in Chandigarh.

The test validates safe descent and landing of the crew module. It is a critical milestone for the success of India's Gaganyaan mission.

## **IPC & Milan-Cortina 2026**

The International Paralympic Committee permitted Russia and Belarus to participate under neutral status in the 2026 Winter Paralympics.

The decision reflects ongoing geopolitical tensions in international sports. It highlights the balance between inclusivity and sanctions in global sporting events.
