DAILY PRACTICE QUESTIONS

1. With reference to homemaking and maintenance laws, consider the following statements:

1. Homemaking has been recognised as a legally relevant role with economic value.
2. Educational qualification alone is sufficient to deny maintenance.
3. Property acquired during marriage can be treated as a joint contribution.

- A) 1 only
- B) 1 and 3 only
- C) 2 and 3 only
- D) 1, 2 and 3

2. With reference to India–Canada relations, consider the following:

1. CEPA negotiations between India and Canada have resumed.
2. Canada’s Cameco will supply uranium to India.
3. The bilateral trade target is \$100 billion by 2030.

- A) 1 and 2 only
- B) 2 and 3 only
- C) 1 only
- D) 1, 2 and 3

3. Consider the following statements regarding space re-entry in the Gaganyaan Mission:

1. De-orbit burn reduces the spacecraft's orbital speed.
2. Re-entry corridor refers to a specific angle for atmospheric entry.
3. If the angle is too steep, the spacecraft may bounce back into space.

A) 1 and 2 only

B) 2 and 3 only

C) 1, 2 and 3

D) 1 only

4. With reference to the Forest Owlet (*Heteroglaux blewitti*), consider the following statements:

1. It is endemic to India.
2. It was rediscovered after being presumed extinct.
3. It prefers tropical evergreen forests.

A) 1 and 2 only

B) 2 and 3 only

C) 1 only

D) 1, 2 and 3

5. Debrigarh Wildlife Sanctuary is located in which of the following states and is associated with which river?

A) Madhya Pradesh – Narmada

B) Odisha – Mahanadi

C) Maharashtra – Godavari

PRABHA IAS IPS COACHING ACADEMY

D) Gujarat – Tapi

SOLUTIONS:

Answer: B) 1 and 3 only

Solution: The Delhi High Court recognised homemaking as having economic value.

Educational qualification alone cannot justify denial of maintenance.

Property acquired during marriage is treated as joint contribution.

Answer: A) 1 and 2 only

Solution: CEPA negotiations have resumed. Cameco will supply uranium (2027–2035).

The trade target is \$50 billion by 2030, not \$100 billion.

Answer: A) 1 and 2 only

Solution: De-orbit burn reduces orbital speed (~28,000 km/h).

Re-entry corridor is the specific safe angle for atmospheric entry.

If too shallow it may bounce back; if too steep it may burn up.

Answer: A) 1 and 2 only

Solution: Forest Owlet is endemic to central India and was rediscovered in 1997.

It inhabits dry deciduous forests, not evergreen forests.

Answer: B) Odisha – Mahanadi

Solution: Debrigarh Wildlife Sanctuary is in Odisha and is bounded by the

Hirakud Reservoir formed by the Hirakud Dam on the Mahanadi River.
