SOLUTIONS:

1. **Answer: A) 1 and 2 only**

PRABHA IAS IPS COACHING ACADEMY

StartupBlink released the IBEI 2026. It measures foundational business conditions using a 0–100 score. India ranks 54th globally.

2. Answer: A) 1 and 2 only

Meningococcal infection is caused by *Neisseria meningitidis* and leads to meningitis or meningococemia. It spreads through respiratory droplets/direct contact.

3. Answer: A) 1 and 2 only

NITI Aayog and JICA signed Phase II cooperation covering themes like Health, Education, Agriculture, Financial Inclusion, and Infrastructure.

4. Answer: B) Screening blood for transfusion-transmitted infections

NAT is a molecular testing method used to detect infections in donated blood to ensure safe transfusion.

5. Answer: C) Right to Safe Blood

The PIL urges the Supreme Court to declare the Right to Safe Blood as part of the Right to Life under Article 21.
